PROFILE

Full Stack Engineer with 5+ years of experience delivering high-performance web applications and interactive user interfaces. Specialized in **React.js, Next.js, TypeScript, and modern frontend architectures** with strong knowledge of **backend APIs and databases** to support end-to-end development. Skilled in **UI/UX optimization, responsive design, accessibility, and SEO-driven development**, while also experienced in integrating APIs and building fullstack features.

EMPLOYMENT HISTORY

Software Engineer, Photon

April 2026 — Remote

- Developed and maintained **React/Next.js applications** serving **[X00k+]** monthly users.
- Optimized **Core Web Vitals** (LCP, CLS, FID) to achieve **90+ Lighthouse scores** across products.
- Implemented **SSR & SSG with Next.js** for SEO-driven landing pages, increasing organic traffic by **35%**.
- Created reusable **component libraries** with TypeScript + Storybook for consistency across multiple projects.
- Integrated **REST/GraphQL APIs** and built client-side caching strategies with SWR/React Query.
- Improved accessibility (WCAG 2.1 AA) across UI, reducing accessibility-related bug reports by **60%**.
- Worked closely with designers (Figma) to ensure **pixel-perfect UI/UX implementations**.
- Mentored junior frontend developers in React best practices, performance optimization, and testing.

Software Engineer, Zetta

Jun 2026 — Mar 2026

- Built **interactive dashboards** with React.js and D3.js for real-time analytics.
- Migrated legacy frontend codebase to **Next.js** improving build speed and maintainability.
- Implemented **dark mode, theme customization, and localization (i18n)** for global users.
- Enhanced UI performance by implementing **lazy loading, code splitting, and image optimization**.
- Developed backend endpoints in **Node.js/Express** to support new frontend features.
- Set up CI/CD pipelines on **VDigital Ocean and AWS**, automating deployments and previews.

AWS

Kubernetes

Docker

Git

Lazy Loading

Accessibility (WCAG/ARIA)

Figma-to-Code workflow

Junior Software Engineer, NuralMind AI

Dec 2025 — Jul 2026

- Designed and developed **responsive, cross-browser interfaces** using HTML5, CSS3, and JavaScript.
- Collaborated with designers to implement UI prototypes into **production-ready code.**
 - Built **custom reusable UI components** and ensured codebase followed scalable CSS methodologies (BEM/SMACSS).
- Implemented **unit and integration tests** improving frontend reliability.
- Gained backend exposure by integrating **third-party APIs** and writing lightweight Node.js services.

EDUCATION

Bachelor's degree, Computer Science, UNIVERSIAPOLIS

Apr 2021 — Sep 2025

PROJECTS

- E-Commerce Platform (React/Next.js):** Built SEO-optimized product pages with SSR, shopping cart, and Stripe integration.
- SaaS Admin Dashboard:** Data visualization with React + D3.js, role-based authentication, and real-time updates.
- Memorial Platform:** Integrated with Stripe payment to buy gifts and candles.
